Population Change 1990 - 2000 Change in the Proportion White Race

HAMILTON COUNTY, OHIO

This represents the White Race population change in proportion between 1990 and 2000. The proportion is calculated by dividing the Census Tract Population by the county total population. Year 2000 Census Block data was aggregated to the 1990 Census Tracts. For comparison purposes, maps 26 and 29 utilize the same legend.
